

Street Law's Breakfast with a Legend™ program is a rewarding way for legal organizations to give back to their communities by empowering young people through law-related education.

The program's goal is simple: to teach 5th and 6th graders about the law by connecting them with the wisdom and human experiences of Legends—local leaders from law-related professions who have contributed positively to their communities.

Participation gives attorneys, paralegals, and other staff at law firms, bar associations, and agencies a unique opportunity to...

- ▶ Take part in a fun, high-energy, interactive community service project
- ▶ Serve as positive adult role-models for 5th and 6th graders, expand their knowledge of rules and laws, and improve their reading comprehension and writing skills
- ▶ Connect with judges, legislators, and other legal Legends involved in the program
- ▶ Increase visibility in their communities and cohesiveness among participants
