

Who Should Decide?

Think (independently) about these questions:

- What decisions do you believe your parents or guardians should make for you?
- What decisions should you be able to make yourself?
- What decisions should be made cooperatively?

Once you have thought of your answers, fill in the chart below:

Decisions I should make for myself	Decisions I should make with my parents	Decisions my parents should make for me

After you have discussed your opinions with other students, your teacher will prompt you to complete the blank chart on the next page and how to label the columns.

Important term: _____
